

## NS-PLXPROTECT2 TRANSPARENT SAFETY SCREEN FOR CREATING A PROTECTED WORKSPACE

### Extra safety at work

NewStar introduces a smart new solution for the new way of working; the NS-PLXPROTECT series. Society has changed since the Covid-19 pandemic and new measures are being taken to enable coworking as safely as possible in this 1.5/2-meter society.

The NS-PLXPROTECT products offer users additional protection from others, by increasing distance and creating a barrier in the workspace. The NS-PLXPROTECT1 (for 1 monitor) and the NS-PLXPROTECT2 (for 2 monitors) do not require fixing to the desk or ceiling – they can be easily attached to the existing desk mount, moving with the flat screen and the height-adjustable desk. The screen, unlike alternative solutions, does not take up extra space on the desk. In addition, the screen can be used as a memo board for your to do lists, using a whiteboard marker. The NS-PLXPROTECT products are very user-friendly, easy to install and easily cleaned.

### NS-PLXPROTECT2

The NS-PLXPROTECT2 is a transparent screen for 2 flat screens, offering distance protection within the workspace – Transparent acrylic

The NS-PLXPROTECT2 is 140 cm wide x 74 cm high and has slots for a VESA-hole pattern of 100x100 mm for mounting 2 flat screens between 22" and 27". The screen is made of 100% transparent acrylic to ensure a spacious feeling and has rounded corners. The screen is equipped with 2 mounting points, so that it is adjustable in height relative to the monitors. Because the NS-PLXPROTECT2 is mounted between the flat screens and the desk mount, the screen moves with the monitors and sit-stand workstation when they are adjusted in height. The flat screens can also be adjusted horizontally towards each other for optimal adjustment. The NS-PLXPROTECT2 can be mounted on 2 separate arms, gas-spring arms, a crossbar and/or a double monitor arm.

Dimensions: 1400x740x3 mm  
Net weight: 3,63 kg

*\* Note: Take into account the maximum load capacity of the desk mount in combination with the weight of the NS-PLXPROTECT1 and the flat screen.*
